

This listing of claims will replace all prior versions, and listings, of claims in the application:

IN THE CLAIMS:

Claims 1-21 (canceled)

Claim 22 (currently amended): A set of mold sections useful in molding a contact lens, the set comprising:

a plurality of first contact lens mold ~~section~~ sections, each first mold section including a contour which corresponds to a ballast portion of a contact lens; and

a plurality of second, single piece contact lens mold ~~section~~ sections, each second mold section including a contour which corresponds to a toric optical zone of a contact lens, [[the]] each combination of a first mold section and [[the]] a second mold section being adapted to be assembled in only a single rotational orientation and being structured to produce a contact lens, provided that the rotational orientation of the contour which corresponds to the toric optical zone of a contact lens of each second mold section in an assembled first mold section/second mold section combination is different.

Claims 23-24 (canceled)

Claim 25 (currently amended): The set of claim 22 wherein the first and second mold sections include corresponding forms adapted to facilitate locking [[the]] each combination of a first mold section and a second mold ~~sections~~ section in the single rotational orientation.

Claim 26 (currently amended): The set of claim 22 wherein the

first and the second mold sections include corresponding forms adapted to lock [[the]] each combination of a first mold section and [[the]] a second mold ~~sections~~ section in the single rotational orientation.

Claim 27 (previously presented): The set of claim 26 wherein the corresponding forms comprise mating forms.

Claim 28 (previously presented): The set of claim 26 wherein the corresponding forms comprise corresponding flats.

Claim 29 (currently amended): The set of claim [[23]] 22 wherein each of the first contact lens mold ~~section~~ sections includes a contour which corresponds to a desired spherical vision correction zone of a contact lens.

Claim 30-34 (canceled)

Claim 35 (new claim): The set of claim 22 wherein, in each first mold section, the contour which corresponds to the ballast portion of a contact lens is the same.
